

Hot Water Tank Leak Tray

Leaks in hot water tanks are all too common. When they happen, they can cause a lot of damage, especially if gone unnoticed. Our Hot Water Tank Leak Tray is the ideal solution to protect your home or multi-unit property from expensive water damage and extensive time-consuming insurance claims.

Designed and manufactured in Canada, our trays are made with 3/16" textured ABS plastic making them both durable and easy to clean. A tray will fit all standard-size residential tanks.

Two models are available:

- Standard trays feature fully sealed drain fittings and include lock nuts.
- Teardrop-shaped model can accommodate a sump pump.

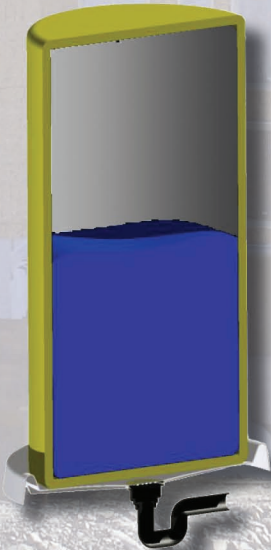

Universal Tank Tray
